<p>P2717.3 Sink, dishwasher and food grinder. The combined discharge from a sink, dishwasher, and waste grinder is permitted to discharge through a single 1 1/2 inch (38 mm) trap. The discharge pipe from the dishwasher shall be increased to a minimum of 3/4 inch (19 mm) in diameter and shall connect with a wye fitting between the discharge of the food-waste grinder and the trap inlet or to the head of the food grinder. The dishwasher waste line shall rise <u>to a point above the top of the dishwasher</u> and be securely fastened to the underside of the counter before connecting to the sink tail piece or the food grinder.</p>		
REASON		
<p>This proposal is different than the current amendment. This proposal requires that the waste line rise to a point above the top of the dishwasher to ensure a proper air break.</p>		
<p>Fiscal impact: no increase to the cost of construction.</p>
